SUMMARY

Software Engineer with proven expertise in React frontend and scalable Go backend systems. Delivered production-grade web applications, reusable UI components, and performance optimizations (40% faster load). Recently deepened backend architecture via microservices, REST APIs, and async processing (RabbitMQ, Redis). Actively applying AI (CatBoost + ConvNeXt) in real-world data challenges. Ready to contribute clean, maintainable code and technical documentation in a full-time, collaborative environment.

EDUCATION

BINUS University
Bachelor of Computer Science

- Graduate with a GPA of 3.50
- Thesis: Improved respiratory disease detection using machine learning on limited & imbalanced lung sound data

Tangerang, Indonesia
2021 - 2025

WORK/INTERNSHIP EXPERIENCE

PT Bank Mandiri (Persero) Tbk
SOFTWARE ENGINEER

- Responsible for analyzing system requirements, designing data processing workflows, and building as well as integrating AI-driven solutions to optimize Customer Experience (CX) and banking operational efficiency.

Jakarta, Indonesia
MAR 2026 - NOW

PT TELKOM INDONESIA
AI SOFTWARE DEVELOPER

- Developed internal company projects serving more than 3 business units and implemented AI-based systems to support digital transformation initiatives

Jakarta, Indonesia
NOV 2025 - MAR 2026

PT CERBERUS SINERGI DATASISTEM
Junior Developer

- Delivered 2 production-grade React web apps in 6 months, meeting 100% of deadlines with zero critical defects
- Designed & implemented reusable UI component library, adopted across 3+ internal projects, boosting dev efficiency by 25%

Jakarta, Indonesia
FEB 2024 - FEB 2025

ORGANIZATIONAL EXPERIENCE

STUDENT CATALYST
Technical Associate

- Built 3+ websites used by 100+ students and volunteers
- Improved site load speed by 40% via media and plugin optimization

Tangerang, Indonesia
SEP 2023 - SEP 2024

CERTIFICATION

APPLE DEVELOPER ACADEMY
iOS Foundation Cohort 18

- Developed and maintained iOS applications using Swift, following best practices in code quality, performance, and scalability

Tangerang, Indonesia
Mar 2023 - Apr 2023

SKILLS

Technical Skills

- Languages: JavaScript, Go (Golang), Python, Swift
- Frontend: HTML5, CSS3, React
- Backend: RESTful APIs, Microservices, PostgreSQL
- AI/ML: CatBoost, ConvNeXt, Data Imbalance Handling

Soft Skills: Problem Solving, Analytical Thinking, Team Work, Cross-functional Collaboration, Technical Documentation

Tools: VS Code, Github, Postman, Docker
